before printing this brochure.*

ECO⁺

Vehicle protection that doesn't cost the earth.

The ECO⁺ Program includes a range of sustainable products to better protect your vehicle.

ECO⁺ Exterior Surface Care

A more sustainable way to protect your cars exterior with a hi-concentrate ceramic coating for extreme durability, gloss and shine. This means, less time maintaining its appearance!

ZERO Ceramic Window Film

100% metal free, delivers significant protection against harmful UVA and UVB rays, dramatically reduces heat in the cabin and therefore reduces air-con usage.

ECO⁺ Interior Surface Care

Helps preserve and protect leather, vinyl, fabric and carpet surfaces with a water-based protective coating, where everyday spills can simply be wiped away.

Truseal Tyre, Wheel & Glass Protection

Delivering extreme durability while permanently locking in that factory finish. It also protects against future UV damage and fading.

+ Purchase the ECO⁺ Protection Pack and receive a Driver Safety Kit!

You'll get a first aid kit (with biodegradable first aid products) car power bank and charger, multi-function flashlight and lots lots more! All bundled up in a sustainable bag that will last forever.

We've used a high quality bag that will last longer and will contribute to helping the planet.

A BETTER CHOICE

ECO+ Pack
Vehicle Protection that
won't cost the earth.

A more sustainable way to protect your vehicle.

ECO+ Exterior Surface Care with Graphene

This high performing exterior coating formula with graphene offers a **more sustainable way to protect your car's exterior**, resulting in extreme hardness and resistance.

ECO+ with graphene delivers super hydrophobic properties **creating an easy-clean, low maintenance surface**. Engineered with nanotechnology to produce distinctive beading which rolls off the surface helping take away dirt, dust and road grime.

- The once-off application adds permanent protection, eliminating the need to wax and polish.
- Helps preserve your vehicle's re-sale value.
- Comes with a nationwide lifetime warranty*.
- Provides protection against clear coat delamination.

Protects your paint against the damage caused by:

- Road grime
- Bug splatter
- Tree sap
- Fallen leaves
- Bird & bat droppings
- Rail dust
- Bore water
- Sunscreen
- Weather induced oxidisation

A Better Choice

Protect the interior for longer lasting comfort.

ECO+ Pack
Vehicle Protection that won't cost the earth.

ECO+ Interior Surface Care

By choosing ECO+ surface care products, you are contributing to a more sustainable way to protect your vehicles interior surfaces, which are designed to maintain the condition of your vehicle and provide a durable barrier against whatever life throws at it.

This range of interior surface coatings create a barrier against UV damage and staining, meaning that all fabric, carpet, vinyl and leather surfaces are treated to protect against discolouration, as well as spills and stains.

ECO+ interior care is a once-off application for a lifetime* of protection.

Protects interior surfaces against the damage caused by:

- Food stains
- Drink stains
- Discolouration[^]
- Dehydration
- Make-up
- Sunscreen
- Mould & mildew growth

A Better Choice

With only one layer of our concentrated water-based treatment, it beats other household aerosol protection sprays in the race to save the planet.

Please be conscious of the planet before printing this brochure.

A smart move for a more sustainable future.

ECO+ Pack
Vehicle Protection that won't cost the earth.

zero

Ceramic Window Film

Ceramic Window Film

Introducing the latest in ceramic technology, **100% metal free window film**, delivers significant protection against harmful UVA and UVB rays and **dramatically reduces heat in the cabin, therefore reduces air-con usage.**

Darkest legal ZERO window film also delivers **outstanding glare reduction and ultimate privacy.** In addition, you'll get the added safety bonus of the vehicle's glass holding together in the event of an accident. For peace of mind, ZERO window film comes with a lifetime warranty*.

- 57% Glare rejection for maximum safety
- 99% UV rejection for maximum protection
- 54% Solar rejection for maximum comfort
- 35% Visible light transmitted for maximum privacy
- 100% dye-free & metal free
- 87% Infrared heat rejection (IR)

Please be conscious of the planet before printing this brochure.

A Better Choice

ZERO Ceramic is **non-metallised** and therefore **more recyclable.** We cut waste by laser-cutting film customised to each vehicle. ZERO cuts down direct sunlight in the car, which means less heat, and less load on the air-con.

Protect your wheels and your planet.

Truseal Tyre, Wheel & Glass Protection

Ceramic Alloy Wheel Protection

Made from a high performance formula combining Silicon Carbide (SiC) and Silicon Dioxide (SiO₂), Truseal Wheel Protection **delivers extreme durability, locking in that factory finish and helping to protect against future UV damage and fading.**

- Reduces reliance on harsh cleaning chemicals. In most cases soapy water is enough to completely clean the wheel.
- Hydrophobic properties reduce the adhesion of contaminants such as brake pad residue, road grime and dust.
- Helps prevent alloy wheel pitting caused by brake dust.

Tyre Protection

Using advanced polymer technology, Truseal Tyre Protection adds a durable deep satin finish, enables simple cleaning with soapy water, is silicon free and offers a flexible protective barrier against harmful UV rays.

Glass Protection

Increase visibility through your windscreen using advanced ceramic formulation, creating a highly durable protective layer between glass and the elements. After application your windscreen will be less susceptible to smearing ensuring clearer vision for longer.

A Better Choice

By creating a durable coating on tyres, wheels and glass, Truseal reduces the frequency of washes. **Less washing means less water wastage and less chemicals down the drain!**

+
Optional Extras

Add a Dash Cam to your vehicle!

Make the smart move and capture every drive with our quality dash camera.

+ SmartVu 4K

The ultimate in recording quality, with the latest 4K HDR for increased clarity. Wide viewing angles on both front & rear cameras to capture every moment.

- Helps to provide evidence in the event of an accident by recording both video & audio on every drive.
- Premium video quality thanks to the SONY™ STARVIS image sensor in the front camera features Ultra-HD "4K" resolution (3840x2160p) recording.
- Wi-Fi enabled for compatible smartphones using the WiFi App, save important videos on the go.
- Smart park mode, consuming significantly less power than industry standard by impact monitoring only.
- Professionally installed by a trained technician.
- Available as front & rear camera only.

Perfect for any vehicle!

A Better Choice

Purchasing a high quality dash camera reduces the frequency of replacing the unit with new models, hence providing a more conscious product. Less waste, less production of goods.

Ultra-HD 4K resolution with the SONY™ STARVIS image sensor.

+
Optional Extras

Add a SmartVu Digital Rear Mirror!

For unobstructed view of the road behind, eliminating blind spots.

+ SmartVu Digital Rear Mirror

- **Vivid 9.66" display:** The large, high-resolution touchscreen adjusts to lighting conditions for optimal visibility, whether in bright sunlight or at night.
- **Eliminate blind spots:** With a 160° ultra-wide field of view, this camera captures more of your surroundings, covering those hard to - see areas for safer lane changes and manoeuvres.
- **Professional installation:** Fitted by a trained professional technician, ensuring a perfect setup for maximum performance and safety.
- **Touchscreen control:** Quickly access settings and features with a user-friendly interface, making operation simple and intuitive while driving.
- **Crystal clear night vision:** The Wide Dynamic Range (WDR) camera enhances low-light performance, so you get sharper, more detailed footage day or night, even in low-light conditions.

A Better Choice

Purchasing a high quality digital rear mirror reduces the frequency of replacing the unit, hence providing a more conscious product.

+ Optional Extras

Add a charger to your purchase!

+ Portable Charger

Portable charging cables are designed for charging your EV using a standard power point.

- Charges from any Australian standard power point.
- Power customisation – Adjust AMPS to suit your vehicle 6A/8A/10A.
- Operating temp: -35C to +50C
- Charge time setting: set a charging time from the control panel.
- 5 year replacement warranty*.
- Heavy duty cable with heat moulded hardware.
- 5 metre cable length.
- Comes in a heavy duty oxford cloth bag with non slip rubber backing.

+ Type 2 - Type 2 Charger

Type 2 - Type 2 charging cables are designed for charging your EV on the road, at any Type 2 charging station.

- Up to 145km charge per hour.
- Weatherproof connector covers.
- 3-Phase charging: 32AMP 22KW 3 Phase EV Charging cable (also compatible with 7KW single phase charging).
- Thermoplastic flame retardant.
- Impact & abrasion resistant, rated to 1.8 metre drop (casing will not crack/split/chip).
- Ultra tough: Rated to 2500kg if run over.
- Operating temp -30°C to +60°C.
- 5 year replacement warranty*.
- Heavy duty cable with heat moulded hardware.
- 5 metre cable length.
- Comes in a heavy duty oxford cloth bag with non slip rubber backing.

A Better Choice

Purchasing a high quality cable goes beyond connectivity. Choosing a reliable charging cable ensures a swift and efficient charge for your vehicle.
