before printing this brochure.*

# EV<sup>+</sup>

## Protection for your electric vehicle.

Discover a range of products thoughtfully engineered for your EV.

EV<sup>+</sup>

### Exterior Ceramic Surface Coating with Graphene

Protect your cars exterior with a hi-concentrate ceramic coating with graphene for extreme durability, gloss and shine. Essential for keeping your EV looking new, for longer.

ZERO

### Ceramic Window Film

100% metal free, delivers significant protection against harmful UVA and UVB rays, dramatically reduces heat in the cabin and therefore reduces air-con usage.

EV<sup>+</sup>

### Interior Surface Coating

Helps preserve and protect leather, vinyl, fabric and carpet surfaces with a water-based protective coating, where everyday spills can simply be wiped away.

Truseal

### Alloy Wheel & Glass Protection

Delivering extreme durability while permanently locking in that factory finish and increasing visibility through the front windscreen.

### Ezi Power Type 2 Charger

Ideal for regular use at dedicated charging stations, this cable offers a convenient charging and can support up to 22kw of power and 3 phase power.

**BONUS!**

### Driver Safety Kit

You'll receive a free first aid kit, power bank and charger, multi-function flashlight and lots lots more!

A SMART CHOICE

**EV+ Pack**  
Curated protection for  
your electric vehicle.

# Next-gen formula to protect your car for longer.

## EV+ Exterior Ceramic Surface Coating with Graphene

This high performing exterior coating formula with graphene is designed for EV drivers who want durable, long-lasting protection for their vehicle's finish. EV+ with graphene delivers extreme hardness and high resistance, helping safeguard your car's exterior against everyday wear.

Engineered with advanced nanotechnology, EV+ creates a super hydrophobic surface for an easy-clean, low maintenance surface. It produces distinctive water beading that rolls cleanly off the paintwork, helping lift away dirt, dust, and road grime with minimal effort.

### Benefits:

- ✓ **The once-off application adds permanent protection, eliminating the need to wax and polish.**
- ✓ **Helps preserve your vehicle's re-sale value.**
- ✓ **Comes with a nationwide lifetime warranty.\***
- ✓ **Provides protection against clear coat delamination.**

Protects your paint against the damage caused by:

- |                                                                                                   |                                                                                                          |                                                                                                               |
|---------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
|  Road grime    |  Bug splatter         |  Tree sap                  |
|  Fallen leaves |  Bird & bat droppings |  Rail dust                 |
|  Bore water    |  Sunscreen            |  Weather induced oxidation |

## A Smart Choice

Designed for modern EV's, this concentrated coating delivers strong surface adhesion for long-term paint protection.

\* Warranty terms and conditions apply.

# Protect the interior for longer lasting comfort.

**EV+ Pack**  
Curated protection for your electric vehicle.

## EV+ Interior Surface Coating

By choosing EV+ surface care products, you're selecting a premium way to protect and maintain your vehicle's interior surfaces, designed to keep your cabin looking and feeling like new for longer.

This range of interior surface coatings forms a durable protective barrier against everyday wear, helping defend against UV exposure and staining. All fabric, carpet, vinyl and leather surfaces are treated to help prevent discolouration, while also resisting spills and stains from daily use.

EV+ interior care is a once-off application designed to deliver long-lasting\* protection for your vehicle's interior.

### Benefits:

- ✓ **Helps keep your vehicle's interior looking better for longer**
- ✓ **Creates a durable protective barrier against everyday wear, UV exposure, and fading**
- ✓ **Resists spills, stains, and general marks across all interior surfaces**
- ✓ **Once-off application designed to deliver interior protection and easier maintenance**

### Protects interior surfaces against the damage caused by:

- |                                                                                                     |                                                                                                           |
|-----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
|  Food stains     |  Make-up               |
|  Drink stains    |  Sunscreen             |
|  Discolouration^ |  Mould & mildew growth |
|  Dehydration     |                                                                                                           |

## A Smart Choice

Designed for modern EV's, this concentrated coating delivers strong surface adhesion for long-term protection.

Ceramic Window Film

## Ceramic Window Film

Introducing the latest in ceramic technology, 100% metal free window film, delivers significant protection against harmful UVA and UVB rays and dramatically reduces heat in the cabin, therefore reduces air-con usage.

### Benefits:

- ✓ Outstanding glare reduction and ultimate privacy.
- ✓ Added safety bonus of the vehicle's glass holding together in the event of an accident.
- ✓ Lifetime warranty.\*

- 57% Glare rejection for maximum safety
- 99% UV rejection for maximum protection
- 54% Solar rejection for maximum comfort
- 35% Visible light transmitted for maximum privacy
- 100% dye-free & metal free
- 87% Infrared heat rejection (IR)

## A Smart Choice

Designed to help maintain the clean, minimalist look modern EV interiors are known for.

\* Warranty terms and conditions apply. We don't tint panoramic glass sunroof.

# Protection for every curve of your wheels.

**EV+ Pack**  
Curated protection for your electric vehicle.

## Truseal Wheel & Glass Protection

### Ceramic Alloy Wheel Protection

Made from a high-performance formula combining Silicon Carbide (SiC) and Silicon Dioxide (SiO<sub>2</sub>), Truseal Wheel Protection delivers exceptional durability, helping to preserve the factory finish while protecting against UV damage and fading.

- Reduces reliance on harsh cleaning chemicals — in most cases, soapy water is sufficient to clean the wheel.
- Hydrophobic properties help reduce the adhesion of contaminants such as brake dust, road grime and dirt.
- Helps prevent alloy wheel pitting caused by brake dust.

### Glass Protection

Increase visibility through your windscreen using an advanced ceramic formulation that creates a highly durable protective layer between the glass and the elements. After application, your windscreen will be less susceptible to smearing, helping to maintain clearer vision for longer.

### A Smart Choice

By creating a durable coating on tyres, wheels and glass, Truseal reduces the frequency of washes.

\* Warranty terms and conditions apply. We don't tint sunroofs.

Charge anywhere,  
anytime.

**EV+ Pack**  
Curated protection for  
your electric vehicle.

## Type 2 - Type 2 Charger

Type 2 - Type 2 charging cables are designed for charging your EV on the road, at any Type 2 charging station.

- Up to 145km charge per hour.
- Weatherproof connector covers.
- 3-Phase charging: 32AMP 22KW 3 Phase EV Charging cable (also compatible with 7KW single phase charging).
- Thermoplastic flame retardant.
- Impact & abrasion resistant, rated to 1.8 metre drop (casing will not crack/split/chip).
- Ultra tough: Rated to 2500kg if run over.
- Operating temp -30°C to +60°C.
- 5 year replacement warranty\*.
- Heavy duty cable with heat moulded hardware.
- 5 metre cable length.
- Comes in a heavy duty oxford cloth bag with non slip rubber backing.

## A Smart Choice

Purchasing a high quality cable goes beyond connectivity. Choosing a reliable charging cable ensures a swift and efficient charge for your vehicle.

\* Warranty terms and conditions apply.

# You'll also receive a Driver Safety Kit!

Here's what this Driver Safety Kit includes:

## Car Power Bank & Charger

A portable device that can be used to jump start your car and power electronic accessories.

## Ezi-Aid Multi-Function Flashlight

Featuring a glass-breaking hammer, inbuilt siren, seatbelt cutter, USB charging port and solar panels to recharge.

## Electronic Road Flare Kit

Battery-powered, with 4 variable lighting sequences offering 360 degrees of visibility - day or night.

## First Aid Kit

Cotton exterior bag filled with clearly labelled products in separate compartments.

## Cotton Gloves, Recycled Plastic Poncho, Microfibre Cloth, Hi-Vis Vest

Keep the bag in the boot of your car, or repurpose it!

## A Smart Choice

Everything you need is packed into a durable, high-quality bag so it's all in one place when you need it most.

Optional

**EV+ Pack**  
Curated protection for  
your electric vehicle.

## Add a Dash Cam to your vehicle
