

# Exterior Surface Protection

## HYDRO Paint Surface Coating

HYDRO exterior surface coating is engineered for durability and protection, creating a barrier against UV damage and staining from the elements. This coating helps to retain a high gloss finish of your paintwork and contains self-cleaning properties, meaning your vehicle stays looking cleaner for longer, allowing you more time to do the things you love!

A once-off application, for a lifetime\* of protection, to preserve and protect the paintwork, as well as the re-sale value of your vehicle.

### Key Features

Made from a high performing formula combining Silicon Carbide (SiC) and Silicon Dioxide (SiO<sub>2</sub>), delivering extreme durability, hardness and a permanent super gloss finish.

As the most durable protective product on the market, HYDRO Paint Surface Coating is 4 times harder than quartz based protectors. Tested, proven and globally certified to the stringent standards set out for Boeing compatible products.

### Benefits

- The key components deliver extreme durability, hardness and a super gloss finish
- Incredible repellence to water, sheeting and rolling off the surface taking dirt and grime with it, and reducing calcified water marks and spotting
- Significantly reduces maintenance, looking cleaner for longer
- Protects your paint against the damage caused by bird and bat droppings, as well as damage caused by fallen leaves, bore water, bug splatter and more
- The once-off application adds permanent protection, eliminating the need to wax and polish
- Helps preserve your vehicle's re-sale value
- Comes with a nationwide lifetime warranty\*

### Extra Thickness. Enhanced Protection.

HYDRO adds an extra, tougher layer on top of the vehicle's factory clear coat.

Once applied, this permanent coating creates a hydrophobic surface so water sheets off, taking dirt and other contaminants with it.

\*Warranty terms, conditions and exclusions apply.
